CHY Mall IS NOT AN INVESTMENT COMPANY

CHY Mall IS A PRODUCT BASED E-COMMERCE SHOPPING MALL WHERE WE DO BUYING AND SELLING LIKE OTHER SHOPPING Malls , but then we also use network marketing business model to promote our business by rewarding customers who promote the quantum energy products through our platform.

CHY Mall never receives your money and gives you interests in return. Until you purchase a product, you will never pay any cash to us.

CHY Mall gives you the product you purchase by you choosing a VIP (Package of your choice).

The NEW RETAIL FEATURE allows you to be connected to the company's manufacturers where you buy actual tangible products at discounts after you have finally purchased one from company's RETAIL SHOP.

Note that company DOES NOT COMPULSORILY SELL YOUR PRODUCTS AT THE WHOLESALE FOR you. Until you choose for company to sell for you, company will

deliver your products to you just like Jumia, kikuu and even Pinduoduo. However, we do this using our already created strategic SERVICE CENTRES.

So the risk would have come in if company has no tangible products that gives you value for the money you pay, but claim that they do buying and selling of products. We do real buying and selling.

E-COMMERCE platforms are highly acceptable in Africa and the world at large. Anybody at all can buy or sell things online.

SEC is not responsible for monitoring companies that do buying and selling of products, because they supply what they have at their own price and nobody cares.

This is why there is no risk in CHY Mall.

The worse that can happen in this business which wouldn't happen because we already have the market of customers is for them to return back your goods that you purchased for which purpose you ordered them to sell for profits.

The good news, however, is that CHY Mall already has its own consumers or customers of its own product and by 2020 December we will be over 500,000 members practicing the new retail system and that should tell you that even if we all stop networking for CHY Mall, the market is there since we ourselves including you and me are the personal consumers of our company products.

Hope this help you to understand this business better?
